INCIDENT REPORTING PROCEDURE

CONTENTS

1. Introduction	4
2. Reporting an Incident.....	4
3. Monitoring and Control.....	4

1. INTRODUCTION

- 1.1 The University College of Osteopathy (UCO) must ensure that it has suitable procedures in place to report and monitor incidents
- 1.2 For the purposes of this document an incident is defined as an event which is beyond the control of the victim and which in some way affects their personal safety, security or well-being, or an event which affects the safety, security or well-being of the UCO as a whole.
- 1.3 This document outlines the steps that should be taken when an incident occurs within the Borough High Street or Southwark Bridge Road buildings and the actions the UCO will take to reduce future risks.

2. REPORTING AN INCIDENT

- 2.1 An individual who is the victim of an incident or witnesses an incident on the UCO's premises should report it and ensure a written log is produced. If the incident happens during core opening hours the incident should be reported to the Head of Estates at the Borough High Street building or the Reception Manager at the Southwark Bridge Road building. Out of hours the report should be made to the receptionist at the relevant site.
- 2.2 A report of the incident will include:
 - a) Date/time of incident
 - b) Name and contact details of victim/person reporting incident
 - c) Brief description of item (if applicable)
 - d) Details of incident
- 2.3 The records will be kept in Room 4.11 at Borough High Street.

3. MONITORING AND CONTROL

- 3.1 For the purposes of monitoring incidents which occur within the UCO, the following categories will be used:
 - a) Theft
 - b) Intruders
 - c) Physical threat or violence
 - d) Other criminal activity committed by or to a member of staff or a student
- 3.2 The Head of Estates will monitor the incidents and look for trends and patterns.
- 3.3 A report will be produced twice a year highlighting any issues which arise from monitoring the trends. This will be reviewed by the Health & Safety Committee.
- 3.4 For any incidences where trends are identified, appropriate measures will be taken to manage and reduce the risks and improve safety and security wherever possible.
